

Tips for Finding Cruise Groups in myNexion

Did you know that you have access in myNexion®, powered by AgentMate to more than **4,000 cruise groups** with added perks to assist you in closing a cruise sale? This number includes the Nexion Cruise Block Space groups, the Travel Leaders Network Amenity Departure, Distinctive Voyage Culinary Collection groups.

All these groups can be found in **myNexion>Inventory**.

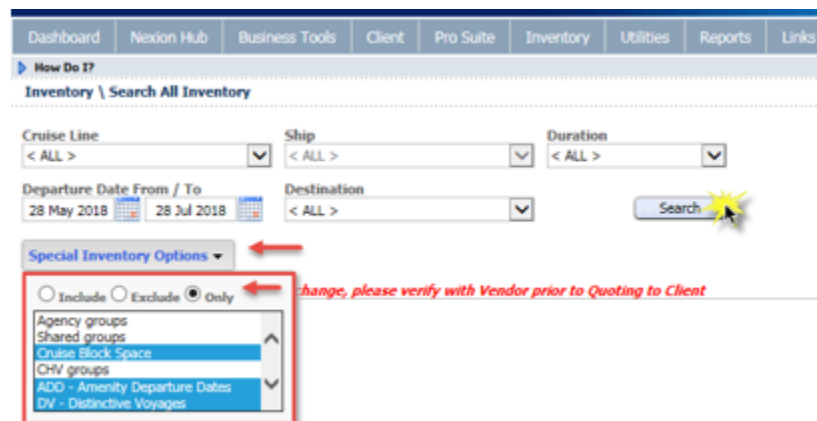

1. Once in Inventory, choose **SEARCH ALL CRUISE INVENTORY** from the dropdown.

2. You can then choose the cruise line, ship and/or date you are looking for. (We don't recommend using Duration or Destination, as these fields can be very finicky.)

3. **NOTE: The next step is the most critical one for finding the groups and unfortunately, the one that is often missed:** Click on **SPECIAL INVENTORY OPTIONS**.

- On this screen, the first thing you want to do is mark the **ONLY** button on the top and then highlight **CRUISE BLOCK SPACE** and the **ADD** and **DV** by holding down the **control** tab on your keyboard.

4. Click **SEARCH**.

- **NOTE:** If you miss step 3 before you hit the search button, all sailings will be displayed in the date range you have put in regardless if there is a group. If you have completed the last step, only the sailings that have group space will be displayed.

5. If the date you are looking for is displayed, go to the last column that is named **SPECIAL** and click on **CORPORATE, ADD, DV or Promo**. (Corporate is the identifier for Nexion Cruise Block Space, and Promo is typically the identifier for the Culinary sailings or if there is more than one group type on a particular sailing.)
