

HEALTH & SAFETY PROGRAM

NORWEGIAN'S PEACE OF MIND

SAIL SAFE | FLEXIBLE BOOKING

At Norwegian Cruise Line, your health and safety are our number one priority. We are ever-evolving our safe cruising program — taking every precaution to protect you. This is just the start of a wave of new technologies and enhancements we are rolling out, so that you can explore the world with the ultimate Peace of Mind.

ENHANCED SCREENING PROTOCOLS

All guests and crew will undergo an extensive pre-embarkation health screening. There will be touchless temperature checks and continuous monitoring of guests and crew throughout your voyage. Checks will occur:

- Prior to embarkation
- Upon returning to the ship while in a port of call
- Prior to all meals in dining venues
- Prior to activities in public venues
- Prior to disembarkation

EXTENDED SHIP TO SHORE SAFETY

We're partnering with our local destinations and tour operators to ensure safety measures extend shoreside. We will only visit safe, open ports of call which may cause changes to your itinerary. Keeping our guests up-to-date with the latest confirmed changes is a top priority.

ALL-NEW AIR FILTRATION

Installation of medical-grade air-filters, H13 HEPA, that remove 99.95% of airborne pathogens to ensure the air you breathe is clean. H13 HEPA filters are fine enough to catch particles of COVID-19.

INCREASED SANITATION MEASURES

All ships are thoroughly cleaned and disinfected prior to every voyage in accordance with company protocols, which are developed in partnership with CDC's Vessel Sanitation Program. Our 24/7 prevention schedule will feature continuous disinfection of public areas and high-traffic touch points.

RESPONSIBLE SOCIAL DISTANCING

To provide even more space for responsible social distancing, guest capacity on board will be reduced. Staggered embarkation and check-in process will be implemented for proper social distancing. In addition, we are committed to reducing capacity in all public areas.

ENHANCED MEDICAL RESOURCES

Onboard medical centers will be fully equipped with the latest testing kits and medical supplies, including onboard testing for COVID-19. We are increasing our medical team fleetwide, and we're adding a new dedicated Public Health Officer on every ship.
